Customer Setup Guidelines

- **Size & Quality:** 3.5"x2.0" (no bleeds) or 3.625"x2.125" (with bleeds) • Best print results @ 300 dpi resolution
- **Marks:** Please **do not** add any marks. 123 Printing will complete setup by placing multiples per sheet & add crop marks at no additional charge.
- **Submit:** (1) Design your business card, (2) Save as a single PDF file (2pgs for 2 sided), (3) Send via email or upload to website.
- **PDF Creator:** PC users using apps like Word or Publisher, will need to download the FREE PDF Creator application from our website. Go to: <http://www.1-2-3printing.com/downloads> After installing the program, from your design program click File > Print. Select PDF Creator (instead of your inkjet or laser), give it a name (ie. Lastname BC dd-mm-yy.pdf), and choose a location to save it to (ie. my documents or desktop). Then email or upload it to our website. Alternate upload service: <http://drop.io> • Have questions? We're available by email, phone & GTalk chat (via website).
